

Camranh scholarships 2010
Truong Trieu Hoc Cam Phu Bac So 1
Vietnam

Back ground

Goal

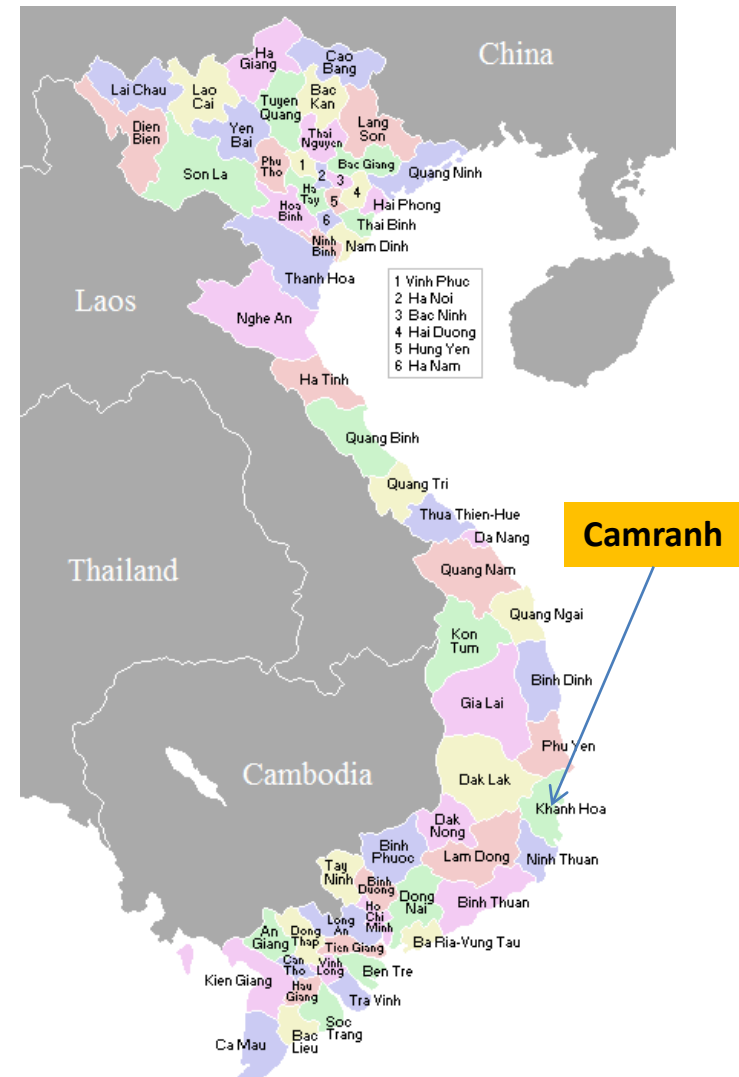

The goal of the Cam Ranh Scholarship is to provide financial support to the most needed children at the Trieu Hoc Cam Phu Bac School. A scholarship should provide them the ability to go to school and additional support in-kind.

Background of the school

The Truong Trieu Hoc School is located in the Cam Ranh district, 400 km north of Ho Chi Minh City. Most people in Cam Ranh are in one way or another involved in fisheries and related industries. Typically whole families have to work to come around. Even though parents are aware of the importance of education and the children are very eager to go to school, some children from the Truong Trieu Hoc School have to work during the week to provide food for the family. These children go around and collect scallops and other seafood during the low tide. Because of their absence, some fall behind and fail for their exams. Some parents can also not afford to pay the tuition fee (100.000 VND – 6 USD annually). Even though their income is low, teachers from the school often sponsor these children by paying their tuition, in order for them to learn to write and read.

Location

• City:	Cam Ranh
• Country:	Vietnam
• Type of education:	Primary school, equivalent to “basisschool” in the Netherlands.
• Number of teachers:	28
